Revivify Protective Coatings Introduces Groundbreaking Vehicle Protection Warranty

Costa Mesa, CA, March 7, 2024 – Revivify Protective Coatings, the leading authority in vehicle coating technology, is proud to announce the launch of its revolutionary Vehicle Protection Warranty. This innovative warranty coincides with Revivify's 5-year product warranty, offering customers unparalleled peace of mind and protection for their vehicles.

In today's automotive landscape, vehicle manufacturers are applying thinner layers of clear coat, leaving vehicles susceptible to a range of paint defects. Revivify's Vehicle Protection Warranty addresses this issue by providing comprehensive coverage for exterior painted surfaces of vehicles. Unlike traditional ceramic coatings, Revivify's silicone-based product is self-healing, ensuring that swirls and superficial scratches are eliminated through the activation of UV rays.

Key features of the Revivify Vehicle Protection Warranty include:

- **Transferability:** The warranty is transferable to a second owner, adding value to the vehicle and enhancing its resale potential.
- **Nationwide Repairs:** Revivify offers nationwide repair services anywhere in the United States, ensuring that customers have access to support no matter where they are located.
- **Toll-Free Customer Service:** Customers can easily file claims online or contact Revivify's dedicated customer service department for assistance.
- **Comprehensive Coverage:** The warranty protects vehicles from a range of environmental factors, including acid rain, bird droppings, industrial fallout, fading, chalking, and loss of gloss.

"We are thrilled to introduce our Vehicle Protection Warranty, which represents a significant advancement in vehicle surface protection," said Todd Sudeck, Vice President at Revivify Protective Coatings. "With this warranty, customers can enjoy the confidence of knowing that their vehicles are protected against a wide range of threats, ensuring that their investment retains its value for years to come."

In addition to exterior paint protection, Revivify's warranty also covers interior leather and fabric surfaces. By penetrating the individual fibers of the vehicle's upholstery, Revivify creates a durable barrier against stains and spills, helping to maintain the vehicle's fresh appearance over time.
